

Upgrade Value Guide

Functionality Designed for the New Way to Do Business.

Today's world demands a new way to do business. Today's business climate requires change. To stay ahead, organizations must address the challenges of reducing operating costs while responding to greater customer needs – ultimately increasing profitability. To stay competitive, cut costs, and grow you need to get more out of your existing investments.

There has been significant value added in each of our product releases. Use this guide to understand the key functionality updates that span the past three releases of Microsoft Dynamics GP. If you aren't on the most current version you're not benefitting from the latest innovation available to your business.
