

Easily reduce the size of your Microsoft Dynamics® GP Database

Company Data Archive (CDA) provides an easy way to move historical information from your Microsoft Dynamics® GP 'live' company to an 'archive' company. An easy-to-use interface allows you to select a cut-off date as well as the modules you would like to archive.

BEFORE

AFTER

BENEFITS

- ▶ **Reduce Hardware Costs**—Archive data to a less expensive disk drive to free up space on your higher-performance storage.
- ▶ **Increase Microsoft Dynamics GP Performance**—Improve posting and other performance by reducing the size of the tables in your live company.
- ▶ **Enable Faster Microsoft Dynamics GP Upgrades and Backups**—Less data in your live company means faster upgrades and backups and less downtime. Reduce the data that needs to be backed up nightly.
- ▶ **Eliminate Clutter in Inquiries and Reports**—Condense and streamline lookup windows and reports to contain only new and relevant data. No more scrolling through old transactions.
- ▶ **Easily View Historical Data in Your Archive Company**—Access your historical data in a familiar Microsoft Dynamics GP environment.

CDA WILL ARCHIVE DATA FROM YOUR:

- | | | |
|-----------------------|--------------------------|-----------------------------|
| ■ GENERAL LEDGER | ■ INVENTORY | ■ PURCHASE ORDER PROCESSING |
| ■ BANK RECONCILIATION | ■ SALES ORDER PROCESSING | ■ RECEIVABLES MANAGEMENT |
| ■ U.S. PAYROLL | ■ PAYABLES MANAGEMENT | ■ 3RD PARTY/CUSTOM TABLES* |

“Company Data Archive provides an extremely cost-effective method to preserve our historical data while improving system performance in our production Microsoft Dynamics GP system.

Our historical data is available for reporting, inquiries, and decision support systems in a format that our staff, accountants, and external auditors are familiar with without compromising system performance which allows us to obtain more value from our Microsoft Dynamics GP investment.”

Company Data Archive

Familiar User Experience

Generate reports, utilize inquiry windows, use smartlists, etc.; exactly as you would in other companies

Archive at Your Leisure

The archiving of customer and vendor data can be paused during peak business hours and resumed as needed.

See Transactions from your 'Live' and 'Archive' Company in One Window

Even though your data is in separate databases, CDA provides an interface to see live and archived transactions in a single window.

Transfer and/or Remove Data

Select which modules you wish to transfer and/or remove information from. This provides you with the option to transfer and review archived data before removing it from your live company.

Archive on a Schedule

CDA allows you to continue to archive into the same company so you can move data quarterly or annually.

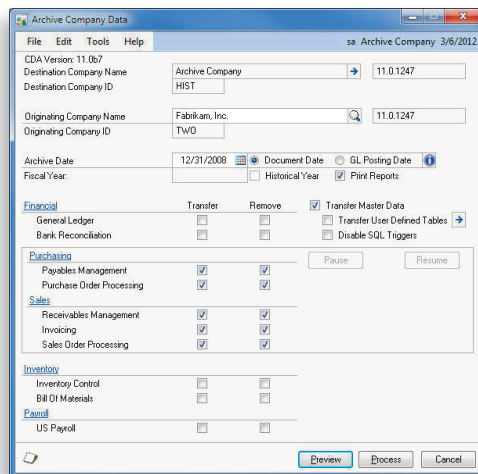

Repair Fragmented Indexes

Optimize fragmented indexes in any company in Microsoft Dynamics GP with a Microsoft recommended SQL script.

How it Works

Easy to Run

CDA Archive Window

Easy to Report

Table Name	Index	Fragmentation	Recommendation
CH20100	AK2CM20100	18.18182%	Reorganize Index
